Profile

Product designer with +8 years of experience in UIUX and Graphic design. Skilled at Adobe Creative Suite (Photoshop, Illustrator, InDesign) as well as hand wireframing

“  
The most effective design often go unnoticed — not because they’re simple, but because they’re seamless  
”

Experience

LEAD PRODUCT DESIGN

- Neuroglee Health  
April 2021 - November 2025
- **Led 0→1** design for the patient app, caregiver app, and provider dashboard—owning the full lifecycle from feature ideation to wireframes, prototypes, and final developer handoff.
  - **Operated cross-functionally** across 3 time zones (Boston, Bangalore, Singapore), establishing the design team as the central anchor of product communication and alignment.
  - **Built and implemented** the company’s complete brand identity, including the updated logo, visual system, design system, and all digital/print assets.
  - **Directed** UX/UI design for multi-domain digital interventions supporting patients with MCI/dementia and their caregivers, managing the full product design pipeline from ideation to execution.
  - **Improved usability by 30%** through structured UX research—user interviews (12 participants), usability testing, and stakeholder feedback loops.
  - **Redesigned dashboard navigation with a wider field of view** and multi-column layout, reducing clicks and improving at-a-glance readability for patients.
  - **Implemented and scaled design processes**, design systems, documentation, and workflow standards to ensure consistency and efficiency across product lines.
  - **Conducted A/B testing across all three platforms in partnership** with QA teams; integrated QA earlier in the cycle to reduce time-to-production.
  - **Delivered high-fidelity Figma prototypes and demo flows for stakeholders** and investors—supporting the acquisition of three major U.S. healthcare partners.

PRODUCT DESIGNER

- MHC ASIA GROUP (Health Technology Company)  
Sep 2019 - Jan 2021
- **Entirely handle UI UX**, Create user flows, design screens, illustrate icons and empty states, improve the useability of BetterHealth app (BetterHealth provides 24/7 on-demand video consultation with a doctor, enabling you to treat common, non-serious conditions at your own comfort and convenience.)

LEAD VISUAL DESIGNER

- Alphanova PTE LTD ( Development and Design agency)  
Oct 2016 - Sep 2019
- **Led visual and UX design for a variety of client-facing projects** across healthcare, finance, and tech sectors, ensuring brand alignment and user engagement
  - **Designed and successfully launched two client-facing platforms:** Taskal, a communication, support, and risk management solution for Nippon Travel Agency; and Cyneo.io, a streamlined communication and support platform for enterprise use

Notable Achievements

- MakeHealthConnect (MHC)**
- BetterHealth App & Dashboard: Led the full design process from concept to delivery, resulting in the launch of TMARS – a telehealth monitoring system.  
<https://pmc.ncbi.nlm.nih.gov/articles/PMC9840157/>
  - iPad Telemedicine Stations: Designed and implemented iPad-based health monitoring stations in dormitories during COVID-19 for real-time vital tracking and remote consultations.  
<https://www.straitstimes.com/singapore/technology-to-help-foreign-workers-in-dorms-monitor-health-josephine-teo>
- Neuroglee Health**
- Mayo Clinic’s HABIT Program: Designed and delivered a tablet-based therapy platform for cognitive care in partnership with the Mayo Clinic.  
<https://medcitynews.com/2021/09/neuroglee-looks-to-mayo-partnership-digital-therapeutics-to-tackle-mild-cognitive-impairment/>
  - Neuroglee Connect & Nuvance Health Integration: Led the design and integration of a home-based cognitive care platform in collaboration with Nuvance Health.
